ABOUT ME

Frontend Developer with over a year of experience, passionate about creating seamless and engaging user experiences. I have a strong background in HTML, CSS, and JavaScript, along with frameworks like Vue.js and React.js. I am always looking for opportunities to apply new technologies and enhance my skills. I excel at working within cross-functional teams and enjoy solving problems to achieve outstanding results

PROJECTS

- ### Car-Shop-app
  - React Single Page Application
  - I use JSON-server to get backend API like
  - User Can Add a new car to this WPA ,Delete it and Modify it and see more car that other user add it
  - TailwindCss and React Vite to get more performance

- **if you wanted to see more awesome project kindly visit my GitHub**

WORK EXPERIENCE

- **NCPC affiliated with the Ministry of Defense**

  IT Support   2023- 2024

  - Troubleshooting: diagnosing and resolving Windows system issues and network-related problems.
  - Networking: Management and maintenance of local area networks and data sharing across the network.
  - Peripheral Support: Support for printers and cameras, ensuring proper functionality.
  - Technical Support: Providing technical assistance to users and efficiently resolving their issues.

CERTIFICATIONS
